

MECATOME T 350 M

Specifications

- Floor standing machine
- Cut-off wheel diameter 355 mm
- Manual cutting movement
- Motor 4 Kw
- Wheel rotation speed 2200 rpm
- Grooved cutting table 400 x 320 mm
- Distance between wheel and table: 150 mm
- Powerful cooling by 2 jets
- Pump and 80 litres tank
- High accessibility to the cutting table
- Spray nozzle for cleaning
- Compliant with EEC standards
- 400 V, 3 phases 50 Hz.

Width: 780 mm
Depth: 1016 mm
Height: 1700 mm
Weight: 325 kg.

Operating

- The Mecatome T 350 M is a floor standing cut off machine with integral base cabinet that support the spray collection pan, work table and cutting wheel assembly on top.

- The manual cutting movement is highly sensitive and easily operating due to reduction ratio.

- Design of the machine with isolated working area makes easier cleaning.

- The wide table with "T" slot grooves allows the use of special fixtures for large samples, or to use our quick clamping vices.

- The MECATOME T 350 M is also specially adapted to bar cutting in laboratory or in workshop.

Accessories

- Quick vice with single or dual clamp
- Table with lateral movement
- "Kopal" clamping system
- Lighting.

Cutting capacity

Distance between wheel: 150 mm.

	110 mm
	100 x 100 mm
	300 x 20 mm 280 x 40 mm 240 x 60 mm 190 x 80 mm
